

MACSWINEY GROWS NUMB FROM FASTING

Cousin Thinks Crisis May Not Come for Three or Four Days, However.

BOTH ARMS BANDAGED

Still Conscious, Complaining of Headaches and Spells of Dizziness.

LONDON, Sept. 9.—Lord Mayor MacSwiney of Cork was reported to be slightly feverish late tonight. The numbness in his limbs and the dizziness from which he suffered during the day were increasing, but the patient was still conscious.

A bulletin issued by the Gaelic League at 7 o'clock this evening says: "Lord Mayor MacSwiney is very weak. He complains of headache and dizziness. He is in considerable pain. The numbness of his body is increasing. Both his arms are now bandaged. He is still conscious."

The noon bulletin issued by the Irish Self-Determination League stated that signs of atrophy of the skin had appeared and that as a consequence the Mayor's arms were being massaged and bandaged.

The Lord Mayor, who has been on a hunger strike since August 12, was visited last night by Father Patrick MacSwiney, a cousin, who said he was surprised to find the prisoner so well. He expressed belief that the strike would not come for three or four days.

After visiting Mayor MacSwiney last evening the prison doctor told his sister, Annie MacSwiney, that her brother was in a very grave condition, according to a statement issued by the Irish Self-Determination League this morning, and that there could be only one end to his continued hunger strike.

The doctor asked Miss MacSwiney if nothing could be done—if she could not appeal to the Mayor, "containing" the statement. "She replied she would not ask her brother to give up the principle of his life."

PORTSMOUTH, England, Sept. 9.—Mary MacSwiney, sister of Lord Mayor MacSwiney, arrived at the hall of the Trades Union Congress here today with the request that she address the congress in behalf of her brother.

The president of the congress in making the announcement to the delegates said that in view of the great strain Miss MacSwiney had undergone in the last two weeks he thought it would be madness to allow her to address the conference. He proposed instead that they send another telegram to Premier Lloyd George demanding the release of MacSwiney. He promised that the Parliamentary committee would further consider the matter.

The congress unanimously endorsed the president's suggestion.

DUBLIN, Sept. 9.—The entire tramway service in Dublin will be suspended for two hours to-morrow to enable the employees to march to a mass for Lord Mayor MacSwiney.

BRITISH LABOR ASKS GUARANTY OF WAGES

Demands Levy on Industry for Unemployed

PORTSMOUTH, England, Sept. 9.—The Trades Union Congress in session here adopted a resolution to-day declaring responsibility for unemployment shall be borne by industry, and that in no case shall the level of income fall below 85 per cent of the wages earned when in full employment. Power should be obtained to force a levy on industry to raise the necessary fund, the resolution added, and the parliamentary committee of the congress was instructed to take necessary action to this end.

By a large majority on a card vote the congress decided to replace the parliamentary committee, which had hitherto managed national labor affairs, by a labor general staff or "general council" representing every distinct industry affiliated with the congress.

James Henry Thomas, general secretary of the National Union of Railwaymen, said that the two delegates appointed by Labor's Council of Action to proceed to Hildesheim for the purpose of obtaining full information on the Russian-Polish peace negotiation arrangements, were having difficulty in obtaining passports. He submitted a resolution approving the appointment of the delegates and calling on the Government to grant passport facilities to British labor delegates. The resolution was carried unanimously.

MEXICAN BANDITS' PRISONER ESCAPES

Capital Announces Britisher Is on Way to Guadalajara.

MEXICO CITY, Sept. 9.—Bertie C. Johnson, a British subject who was kidnapped by Pedro Zamora, an Autista on August 10, has escaped from the bandits and is on his way to Guadalajara under escort of Government troops. It was announced at the War Department last night.

Announcement is made at the War Department that the Mexican Government is purchasing 40,000 rifles in England and Germany with which to equip the army, which is being reorganized. A campaign against outlaws, especially those who have been preying on paymasters in the petroleum regions, is to be begun, it was announced.

FELLSBTON, Cal., Sept. 9.—W. A. Gardiner, American citizen kidnapped by the bandit Zamora in the State of Jalisco, Mexico, obtained freedom through payment of a ransom and not by escape, as reported previously, according to friends of Mrs. Gardiner.

"High Quality" of Men Respond

TALKING BOOK CORPORATION, 1 West 34th Street, New York City.

THE SUN AND NEW YORK HERALD, Herald Square, New York.

I desire to express my satisfaction with the service we have received through your HELP WANTED advertising and the high quality of men who have answered our ads. in The Sun and New York Herald. We secured the men we were looking for.

REDS BACK ITALIAN WORKERS' REVOLT

Movement Forecast by Premier Giolitti, Referring to Lenin's Schemes.

CALL FOR STATE TO ACT

Workmen Launch Destroyer, Black and Red Flags Waving Above It.

ROME, Sept. 9.—Efforts continue to bring about a solution of the situation which has arisen throughout Italy as a result of the movement among metal workers to occupy plants in many of the most important industrial centres. The Government has been called upon to intervene, but so far has been neutral, and it is said by newspapers it will act only to insure maintenance of order. Reports received here indicate that quiet prevails at all affected centres, and that engineers, foremen and clerical staffs employed at occupied plants still refuse to join the workers. The fact that delegates from workers' and employers' organizations are in communication with each other is looked upon as being favorable to an adjustment of the situation.

It was declared that the majority of the metal workers are controlled by extreme socialists who are desirous of giving the movement a political character, but responsible leaders of the party were said to discourage such a policy. At many places the workers have announced they are ready to convert themselves into cooperative societies, which would undertake the direct management of works that have been occupied, payment which would be fixed by arbitration and deposit the necessary guarantees.

Has Bolshevik Origin.

When he returned from his conference with Premier Lloyd George at Lucerne Premier Giolitti issued a statement, referring to "recent agreements between European Socialists and Nikolai Lenin, Russian Bolshevik Premier," and forecast those agreements might be forerunners of active revolutionary attempts which would soon occur in Italy. There is every indication the present movement is of a Bolshevik origin, and systematically and that efforts were made to involve other trades besides metal workers. The typical caution of the Italian peasants, however, made it difficult to set any extended revolt in motion, it is asserted.

Commenting to-day on the situation, the Tribune says it appears that the highest point in the tension between employers and the workmen has been reached. "Challenges have been given on both sides which, if rigidly held to by both, may have unimagined consequences of ruin for all," continues the newspaper. Therefore it asks whether the moment has not arrived when the state should interfere, using its supreme authority in the name of the entire nation, and make its decisive will felt against the prolongation of conflicts which are injuring the economic life and threaten the social and political tranquility of the country.

Compromise Hinted At.

This expression from the Tribune is being remarked upon as of possible significance, coming as it does from a ministerial organ and one which also has been a defender of the employers' interests.

MILAN, Italy, Sept. 9.—One hundred labor chambers and fifty federations of trades, representing 2,500,000 workmen, will be represented at the meeting of the General Confederation of Labor, which will convene here on Friday to decide on the policy to be pursued by the Confederation relative to the labor situation in Italy.

LEGHORN, Italy, Sept. 8 (delayed).—Workmen who have occupied the Orlandi Shipyard here launched a destroyer built there for the Italian Government to-day. Black and red flags waved above it as it slid down the ways into the sea, and as it gracefully took the water there rose deafening cries of "Viva Socialismo."

LONDON, Sept. 9.—The Milan correspondent of the London Times thinks that Premier Giolitti failed to realize the magnitude of the metal workers' movement in Italy until too late, and that he then tried to bring pressure to bear on the masters, but these remained firm and accused the Government of omission of timely action to protect their property, and they argue that to capitulate now would weaken and compromise their position forever.

It would be a mistake, however, continues the correspondent, to represent Italy as being on the verge of social upheaval, unless some sensational incident should precipitate a violent clash.

GREEKS REPLACING BRITISH AT ISMID

Turkish Vizier Wants to Hang Nationalist Leader.

By the Associated Press.

CONSTANTINOPLE, Sept. 9 (delayed).—Five transports of Greek troops have landed at Ismid, on the Gulf of Ismid, fifty-five miles southeast of Constantinople, and are replacing the British forces there, according to advices received to-day.

A deputation of Senators to-day called on Damad Ferid Pasha, the Grand Vizier, and begged that he come to an agreement with the Nationalists before the Greeks find an excuse for occupying Constantinople. It is said the Grand Vizier wishes to thank Mustafa Kemal Pasha, the Nationalist leader, and therefore his attitude prevents an amicable arrangement with the Nationalists.

REDS MOVE TO GAIN CHINA'S RECOGNITION

Send Agent to Peking From Far Eastern Republic.

NEW QUAKE IN ITALY KILLS MANY MORE

Shocks Are More Violent Than Tuesday's, Felling Tottling Buildings.

POPE ORDERS HELP SENT

Worshippers Killed When Church Is Rocked—Priest at Mass a Victim.

By the Associated Press.

ROME, Sept. 9.—Another earthquake occurred in the Emilia district at 3:35 o'clock this morning, causing the loss of lives and considerable damage. It was more violent than Tuesday's shock. The communities suffering the most were Reggio, Ospedaletti, Busana, Toano and Cavola.

The Emilia embraces the district between the Apennines and the River Po and is divided into the eight provinces of Piacenza, Parma, Reggio, Modena, Bologna, Ferrara, Ravenna and Friuli. It covers an area of about 7920 square miles and has a population of approximately 2,600,000 persons.

Government and private relief agencies are aiding the survivors and searching the ruins for any victims who may still be alive following the shock Tuesday, but the work is seriously handicapped by the difficulty experienced in reaching many of the ruined towns, which are in the mountains and are almost inaccessible. Electric light wires have been broken and work in the ruins must stop at nightfall.

New shocks have been felt in Florence and in the neighborhood of that city. These have shaken down the tottering structures, however, and still further delayed the work of rescue. Massa Carrara, in the centre of the earthquake zone, was cut off from communication with the outside world last night.

A tragic and memorable scene was enacted at Marina, near Carrara, when the earthquake shattered a church where mass was being celebrated, killing many of those who were worshipping.

Father Riccardo Bruscolletti was killed while celebrating mass at Castanvalva. Pope Benedict sent a telegram to Cardinal Matti, Archbishop of Pisa, asking him to go into the earthquake zone and administer aid and moral support and distribute supplies.

BOLSHEVIKI ALARMED AT ARMY DISCONTENT

Every Available Man Mustered to Fight Poles.

SPECIAL TO THE SUN AND NEW YORK HERALD.

WASHINGTON, Sept. 9.—Indications that the Russian Bolshevik authorities are genuinely alarmed over rumbling of internal discontent, as well as their military situation, appeared in official advices received by the State Department to-day from the Baltic region.

These advices show that while the Bolshevik authorities are quite evidently delaying peace parleys with the Poles they are taking extreme measures to strengthen their military machine; that Russian soldiers are grumbling and deserting the Red Army and that drastic food regulations have recently been issued.

Every available man in the Russian reserve forces is being mustered into service, Petrograd and Karelia having been stripped of reserves called to serve against the Poles. While the waiting forces of the Bolshevik armies quiver the Poles call for reinforcements, the forces of Gen. Wrangel in South Russia are also reported as giving the Bolshevik army trouble. Trotsky has ordered that Wrangel be destroyed "at all costs."

The Bolsheviks have taken charge of grain warehouses in the territory controlled by them and put sentries at the mills to prevent peasants stealing or hoarding goods.

432 DIE IN QUAKE IN ONE ITALIAN TOWN

List of Victims Steadily Grows Larger.

By the Associated Press.

FLORENCE, Sept. 9.—The number of dead from Tuesday's earthquake is steadily growing as additional reports come in. The latest advices from Livorno bring the total of dead there alone up to 432, while in Vignatta 124 are dead and about 1,800 injured.

In almost three score towns and villages serious damage was done and more than 10,000 persons were rendered homeless.

PARIS, Sept. 9.—Charles Laurent, French Ambassador to Germany, was handed a check for 100,000 francs to-day by the German Government, according to advices from Berlin. The sum represented the indemnity due France from Germany because of the recent attack on the French consulate in Breslau.

Man Dies in Dentist's Chair.

BRENTON, Sept. 9.—Clarence Butterfield, 28 years old, son of George Butterfield, was advised by his physician to have his teeth removed to cure his indigestion. He died to-day of heart disease in the dentist's chair. He leaves a wife and three children.

Severe Quake in California Town.

SAN JOSE, Cal., Sept. 9.—An earthquake, the heaviest in years here, was felt at 8:57 A. M. to-day. According to the Lick Observatory on Mount Hamilton, the direction of the quake was from east to west. No reports of damage have been received.

REPARATIONS TO BE EXAMINED AT GENEVA

Allies Differ on Question of Admitting Germans.

LONDON, Sept. 9.—Officially, 38 of the allied nations will meet in Geneva on to-morrow 15 to examine the question of reparations and discuss suggestions by the Interallied Reparations Commission, says a Brussels despatch to the London Times. The despatch quotes Premier Delaurox of Belgium as saying that France does not favor calling the Germans into the conference, but that England is willing that Germans should attend.

The Premier says he has suggested that German delegates be summoned to Paris by the Reparations Commission and that at that meeting it will be determined whether Germany will be represented at Geneva. This idea, it is said, has been accepted by the French, and will be submitted to the British Government by the Belgian Premier.
